HELP PROTECT WITH THE POWER OF FLEX

TruDefinition® Duration FLEX® Shingles with SureNail® Technology

Your shingles need to help protect your home on a daily basis. Duration FLEX® shingles are more flexible than standard shingles, for enhanced durability and performance in all environmental conditions, including storms and cold weather installation. And they're the only SBS modified polymer shingle that also comes with the advanced performance of patented SureNail® Technology for added confidence in windy conditions.

Duration FLEX® shingles include:

- Patented SureNail® Technology for exceptional wind resistance
- Limited Lifetime Warranty**/††
- 130-MPH Wind Resistance Limited Warranty**
- StreakGuard™ Protection with a 10-year Algae Resistance Limited Warranty**
- Popular color options, ranging from rich and subtle to lively and vibrant.

Made with a proprietary blend of SBS polymer modified asphalt

The rubberizing effect of our uniquely blended SBS modified asphalt makes the shingles pliable and gives them greater flexibility than standard shingles. The result is a premium architectural asphalt shingle with enhanced durability and toughness, especially under intense storm conditions, to help deliver lasting protection for your home.

Duration FLEX® Shingles

- Feature SureNail® Technology which gives a **42% better nail-pull resistance** against the wind versus standard shingles.
- Have built-in flexibility to help resist cracking and tearing, in all-weather installation conditions — **over 10% stronger tear strength than traditional shingles.**
- **Lays flat faster** than standard shingles.
- Offer rubber-like flexibility to withstand expansion and contraction stresses and helps **minimize loss of granules** which help to protect the shingle against UV.
- Help absorb the energy of the impact of hail or storm debris; have the **highest impact rating possible**; UL 2218 Class 4 and may qualify for a homeowner insurance discount*.

Onyx Black†

TRUDEFINITION® DURATION FLEX® SHINGLES

Add style to your home with premium color blends in a range of choices from subtle to vibrant.

THE ONLY SBS SHINGLE WITH SURENAIL® TECHNOLOGY

When performance is your priority, choose the shingle that offers you a material difference.

Duration FLEX® shingles are the only SBS modified polymer shingle with the added confidence of patented SureNail® Technology for exceptional wind resistance.

UL 2218, Class 4

Highest rating possible for impact resistance.

Flexible Shingles

Withstands shingle expansion and contraction; helps resist cracking and tearing.

Excellent Adhesive Power

Helps keep the shingle layers laminated.

Outstanding Grip

The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®± sealant for exceptional wind resistance of a 130-MPH wind warranty.**

Breakthrough Design

Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone

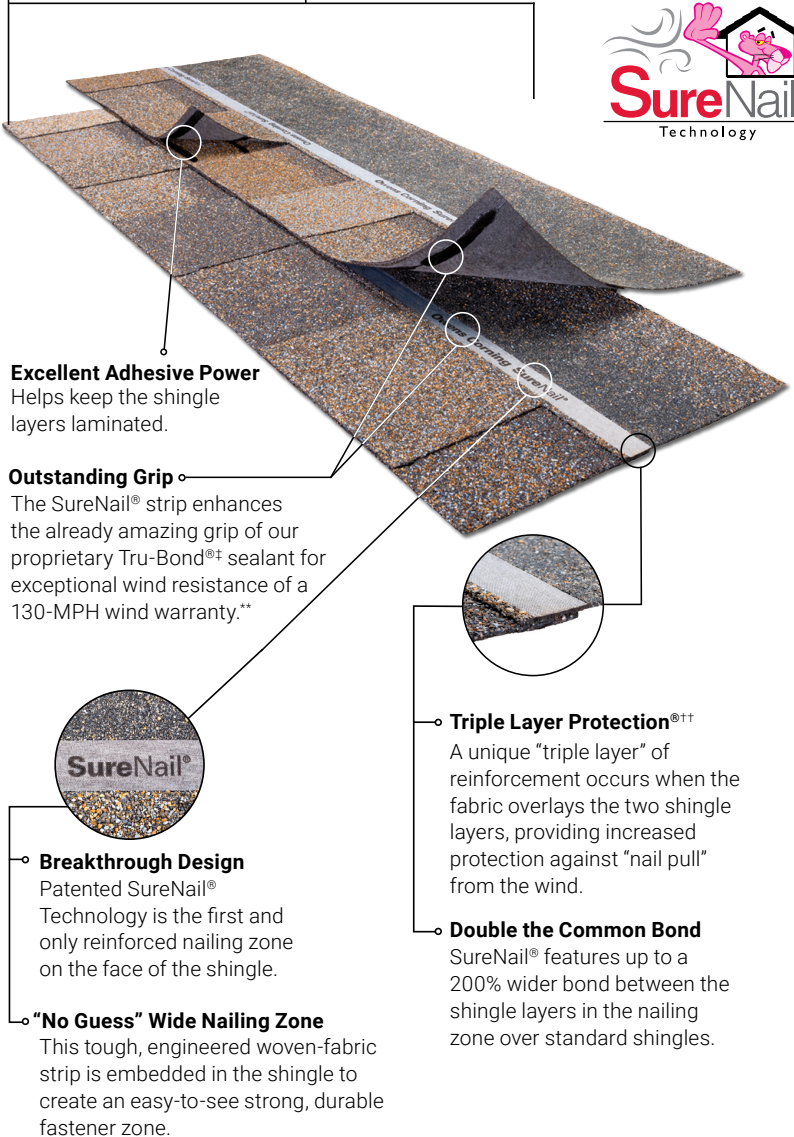

This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Triple Layer Protection®††

A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

Double the Common Bond

SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

TOTAL PROTECTION ROOFING SYSTEM®[^]

TOTAL PROTECTION SIMPLIFIED™

Owens Corning® Total Protection Roofing System® integrates engineered Owens Corning® components that work together to address these three primary performance areas, critical to a high-performance roof, while also making it easy to understand the importance of each. **With Owens Corning, it's easy to confidently deliver total protection, beauty and peace of mind.**

** See actual warranty for complete details, limitations and requirements.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

†† This illustration depicts Triple Layer Protection® and the amount of Triple Layer Protection® may vary on a shingle-to-shingle basis.

‡ Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing & Asphalt, LLC.

††† 40-Year Limited Warranty on commercial projects.

^ Excludes non-Owens Corning® roofing products such as flashing, fasteners, pipe boots and wood decking.

SureNail® Technology is not a guarantee of performance in all-weather conditions. SureNail® Technology is available only on Owens Corning® Duration® Series Shingles. For patent information, please visit www.owenscorning.com/patents.

CSA A123.5 applies to product produced in Summit.
